

**Prolimbic 29®** is a physician-formulated combination of six natural ingredients to help support healthy cognitive function and brain processes associated with memory and mental energy\*. It can assist you in performing at your highest cognitive potential when you're young and to maintain your mental sharpness as you age\*.

## MOST PEOPLE WHO TAKE PROLIMBIC 29® FEEL RESULTS WITHIN HOURS, NOT WEEKS.

Take Prolimbic 29® every day for a long-term commitment to good brain health.\*

“

*I've taken just one capsule of this product daily for 90 days and have felt more focused and sharper every day. I've decreased my caffeine consumption as a result. I don't feel up and down mental highs and lows. I like that it's natural.*

**Bruce Gorman** is a verified Prolimbic 29® auto-delivery customer.

”

**Dr. Jordan Balencic, D.O.**  
Primary Care Physician and CEO,  
ERApeutics®

## HELPING SCIENCE MAKE SENSE FOR YOUR FAMILY

The longer I practiced medicine, the more I realized my patients were confused by the huge number of dietary supplement companies making misleading claims. What's safe? What can you trust? I founded ERApeutics® to do what doctors do for patients . . . educate you about healthy practices and give you ways to stay well. ERApeutics' physicians and nutritionists believe in the health benefits of dietary supplements, but only if the science makes sense. We care deeply about creating and curating products you can trust.

We take Prolimbic 29®, and we give it to our family members.

Sincerely,  
**Jordan P. Balencic, D.O.**

## 6 SAFE, NATURAL INGREDIENTS

Our physicians carefully chose these ingredients to support your brain's healthy production of neurotransmitters associated with your memory, cognition, and attention\*.

### **NeuroFactor™ (100 mg)**

This exciting, patented ingredient has the powerful antioxidant capacity to help fight free radical stress and raise BDNF levels in the brain\*. BDNF stands for brain-derived neurotrophic factor, a protein responsible for developing and protecting nerve cells in the central and peripheral nervous system. BDNF levels decline with age and become dysregulated in people with diseases such as Parkinson's and Alzheimer's.\*

### **L-Tyrosine (200 mg)**

This amino acid can be converted in the brain and adrenal glands to dopamine, norepinephrine, and epinephrine—neurotransmitter hormones that are depleted by stress, overwork, and certain medicines. Mental energy levels may be improved by replenishing dopamine and norepinephrine in the brain.\*

### **Huperzine-A (100 mcg)**

A natural ingredient derived from the firmoss plant, Huperzine-A has demonstrated both memory enhancement and neuroprotective effects in clinical trials. It naturally increases your main “thinking” neurotransmitter, responsible for your memory recall, thought clarity, and other important cognitive functions.\*

### **L-Theanine (100 mg)**

This amino acid, most commonly found in tea leaves, helps promote a calm, relaxed state of mind without diminishing daytime alertness. It also reduces levels of chemicals in the brain that are linked to stress and anxiety.\*

### **Alpha GPC (100 mg)**

A safe, well-tolerated ingredient, Alpha GPC is recognized worldwide as a powerful memory enhancer.\*

### **Alpha lipoic acid (50 mg)**

This potent antioxidant compound works with mitochondria and your body's natural antioxidant defenses to counteract oxidation and inflammation. These effects protect against heart and liver diseases, diabetes, and neurological decline associated with aging.\*

\*SUPPORTED BY SCIENCE: NeuroFactor™ has been shown in two human clinical studies to increase BDNF levels up to 143%.

“

*Prolimbic 29® makes it easier for me to remember things . . . and it relaxes me. I have known Dr. Balencic all his life and trust his products. I have my friends and family taking Prolimbic 29® because I want them to be healthy. People say it helps their memory, helps them sleep better and relaxes them.*

”

As important as what Prolimbic 29® contains, is what it does not contain:

**No GMOs**

**No Preservatives**

**No Harmful Fillers**

**No Added Caffeine**

**No Artificial Flavors or Sweeteners**

We guarantee the quality of our ingredients, test and verify their purity, then blend, encapsulate and bottle our supplements in an FDA-registered facility in the United States.
